

**NEVAVISION**  
WHERE TALENT MEETS CAREER

Product Name : **NEXAVISION**

Web portal : <https://www.nexavision.com>

Target users : Children from 8<sup>th</sup> and 9<sup>th</sup> standard

### **Purpose of product :**

- To provide an opportunity for every student to explore the entire spectrum of career options
- To combine technologies like Machine Learning (ML) and Artificial Intelligence (AI) with Psychometrics to create a unique product for children

### **Existing ways of career Counseling:**

- IQ (*Intelligence Quotient*) Test
- EQ (*Emotional Quotient*) Test
- Personality Test
- Brain Mapping Test

These systems are not enough to assess the best possible career option for student.

### **Drawbacks of current systems:**

- **Conflict of interest and Intelligence** : IQ test will tell you results according to your intelligence not according to Interest.
- **Capability failure check** : If a child wants to pursue career in Physics then, his/her mathematics should be good. This is not assessed in current tests.
- **Inaccurate results because of lack of concentration for long time tests in children** : Normal attention span of child is 10 to 15 mins maximum. Current test are with more than an hour length. It lowers down probability of getting accurate results.

### What we offer:

- **Unique method of II (Interest Inventory)** : It offers large number of career options for nurturing the interest of child.
- **Short time tests** : It helps for assessing most accurate results.
- **Standardized tests according to Indian education system and environment** : For getting accurate results, it is very important that those should be designed according to the Indian education system. This is the most important element which is missing in existing counseling methods. We have a dedicated team of psychologists.
- **Live sessions by Subject Matter Experts**: There will be live sessions on portal by SMEs for doubt resolution.

### Highlights of Portal:

- Pre Test
